## The first guide you write yourself

### Exploration and inspiration

The Moleskine City Notebook encourages you to explore and embrace the cities you love. Written in your unique voice, the book lets you create itineraries and trace your journeys through the streets of Rome, Paris, London, Amsterdam, and other great metropolises. The City Notebook is the first guidebook that is entirely written by you. You decide the top 10 things to do, spots to see or places to go. You rate the restaurants. And you choose the memories worth saving.

### An indispensable companion & guide

A Moleskine City Notebook is the perfect companion for anyone hitting the road. The ideal gift for sightseers, jet-setters, traveling businessmen, or even local heroes, it will help organize a trip and preserve it forever. Or, for urbane urbanites, it offers the perfect way to write the book on your hometown.

### A journal, sketchbook & keepsake

Create your own personal city map filled with places, addresses, people, stories, memories. Use it over and over: modify it, update it — put the whole city in a single, gorgeous notebook. Each \$14.36 edition has an elastic closure, 228 pages, with up to 44 pages in color, and a sewn binding. There is an inside accordion pocket for storing papers and three ribbon placemarkers, each in a different color.
